Pairing

Pairing with one earbud

1. Press and hold the multi-function button until the light flashes red and blue
2. Turn on the Bluetooth on your device and select “i7tws” on the list of available devices

Pairing with both earbuds

1. Press and hold the multi-function buttons on both earbuds at the same time
3. Double click either side to enter pairing mode, or press and hold for 3 seconds
4. Ensure Bluetooth is activated on your device and select “i7tws” to connect
5. When the light flashes blue, the pairing was successful. Note- battery status will display on your smartphone

There will only be one earbud working when making and answering phone calls. Both earbuds can be used to control power, play and pause.

Bluetooth usages

Making calls

To make phone calls, ensure the earphone is paired with your mobile phone. When making calls there will only be one earbud working.

Answering calls

To answer a call, gently press the power button once. To refuse a call, quickly press the button twice. When playing music, you can redial by pressing the power button two times.

Listening to music

Ensure the earphone is paired with your device. Once paired successfully, you can listen to music by selecting a song on your smart phone. Quickly press the power button to stop the music and repeat to play.

Powering Off

Press and hold the power button until the light is red; this will power off the earbuds when not in use. It will automatically power off when the earphone is disconnected from Bluetooth for 5 minutes.

Charging

There is a sound indicating low battery when earphones are connected. The light will also flash red. When charging, the light will be red and will turn blue when fully charged.

Warning

1. Keep away from heat and moisture
2. Use earphones under 10 meter range
